SURPASS™
Clinical Performance Underpad by Standard Textile

THE NEXT GENERATION UNDERPAD

ENGINEERED FOR PERFORMANCE

SURPASS™ is the first-of-its kind high-performance reusable underpad designed to provide unparalleled moisture control, rapid surface drying, enhanced comfort, and critical sustainability benefits. Engineered without PFAS or PVC chemistry and featuring advanced HydroLock™ moisture-wicking technology, *SURPASS™* keeps patients dry and comfortable while reducing environmental impact, offering a cost-effective solution that meets or exceeds current disposable and reusable options.

THE SUSTAINABLE CHOICE

Standard Textile is committed to a future where 29 lbs of waste per bed per day¹ is no longer the norm. That's why we created *SURPASS™*— the clear underpad of choice when it comes to eliminating single-use disposable products. With *SURPASS™*, healthcare facilities can dramatically cut down on landfill waste and lower their environmental footprint, all while maintaining superior patient care. Its reusability not only benefits the environment but also reduces costs over time, offering a greener, more economical solution for incontinence care.

To learn more about Standard Textile's *SURPASS™* underpad, or to contact a dedicated healthcare consultant, visit standardtextile.com or call 1.800.999.0400.

SUPERIOR MOISTURE ABSORPTION

SURPASS™ features patent pending HydroLock™ technology to keep patients dry and comfortable.

ENHANCED PATIENT CARE

SURPASS™ minimizes moisture accumulation, helping to maintain a healthier microclimate and improve patient care.

NO PFAS OR PVC

SURPASS™ is engineered without PFAS or PVC chemistry.

COST EFFECTIVE

SURPASS™ offers substantial cost savings over disposables by being reusable and easy to process through laundry facilities at a lower total life cycle cost.

Each *SURPASS™* reusable underpad can replace over 60 disposable pads.
